MyFILLER Revitalize Slim

REVITALIZE PROTOCOL

1. Clean, sterilise and apllied anaesthetic topical cream to the chosen area to be treated.

2. After 30-60 minutes check if the area is numb. Remove topical cream with gauze and warm water. Exfoliate the area with a double cleanse, sterilise area and blot dry. Protect patient using appropriate means of covering like gauze, micropore tape and head-band.

3. Select chosen mesotherapy product and draw down 1ml into sterile container

4. Apply the product to area being treated with a cotton bud or gauze.

5. Choose depth on micro-needling pen to maximum depth for the areas following (1mm face and 2-2.5mm body) and begin to stamp the mesotherapy product into the skin covering all areas.

6. Apply another layer of mesotherapy product.

7. Reduce pen depth to half previous chosen. Create rows vertical and horizontal to cover all the areas.

8. Apply another layer of mesotherapy and repeat using 's' sweeping motions with the Revitalize to cover all areas.

9. Apply the remaining mesotherapy product liberally all over with cotton bud or gauze.

10. Blot the area dry with a tissue.

11. Apply moisturizer and/or SPF cream.
