

# Fog-Guard™

Endoscopic Anti-Fog Solution

Invotec International's Fog-Guard Anti-fog solution has been formulated without alcohol to provide excellent levels of anti-fog protection from distortion for your delicate glass optics. The application pad is fitted with an adhesive back designed for optimum intraoperative positioning and stability near the surgical field.

Will Not Damage Endoscope Lens

Provided Ready To Use, with No Need for Mixing or Formulating

Includes Micropore, Non-Abrasive, Radiopaque Wiping Pad
